October 5, 2010

The Honorable Lisa Jackson
Administration, Environmental Protection Agency
Washington, D.C.

Dear Madam Administrator:

I understand that issues have arisen concerning the enforcement of Clean Water Act standards for the State of Virginia, particularly with respect to the Chesapeake Bay.

As an individual who is concerned about this issue, I urge you to convince Virginia state officials to fulfill their responsibility to clean up the Chesapeake Bay, in cooperation with neighboring states and the federal government. Please use the powers you have as EPA Administrator to get Virginia's support for a healthy Bay.

Sincerely,

John P. Becker
